

Water, our precious!

Water is vital! An important resource that we sometimes easily disconsider. Bring your contribution and help us by preserving this vital resource!

How?

- You can turn the faucet off while brushing your teeth or shaving;
- You can chose taking a shower instead of a bath. Also, turning the water off while lathering;
- Avoid using the toilet as a garbage bin;
- Make sure that all faucets are turned off properly;
- We advise you to report leaky faucets or toilets.

One person's decision, an impact on millions!
